

NAZDAR® 7470 Series UV Cured Inkjet Ink

NAZDAR® 7470 Series Digital Inks for Printers including Agfa/Gandi, Inca, Durst

- **Formulated specifically for use with rigid substrates**
- **Superior adhesion to resist edge chipping & peeling**
- **Reliable unattended printing**
- **Excellent print head & nozzle performance**
- **High intensity colours with extended colour gamut**
- **Consistent colour density**
- **Fast curing formula**
- **Long term exterior performance with proven resistance to the effects of UV degradation and fading**

With the industry's strongest third party warranty, you'll take comfort in knowing that Nazdar stands behind every drop of Nazdar ink that it supplies. Nazdar's warranty states that if Nazdar inks are ever proven responsible for a breakdown of a digital printer, Nazdar will provide reimbursement for the cost required to repair any damage to the ink train.

QPS Ltd proudly offer our Nazdar branded products as the most reliable and technically advanced in the industry.

Nazdar 7470 series ink has been specifically formulated to solve the problems of adhesion to traditionally difficult substrates encountered by OEM ink sets.

Nazdar 7470 is ideal for printers designed to print onto rigid materials and displays industry leading adhesion to substrates like, fluted polypropylene, dibond type composite board, styrene and Sintra. Expanded substrate compatibility and improved adhesion will maximise the flexibility of use with rigid materials. Nazdar 7470 ink also offers expanded colour gamut compared with OEM ink sets, so profiling will maximise the available colours.

Outdoor performance matches that of the OEM offering, as with all Nazdar branded solutions. Allow us to demonstrate the saving available over the OEM product. The ink can be installed quickly and easily with the help of Nazdar certified technicians.

You will find the Nazdar brand buried in the history of nearly every inkjet printer manufacturer currently offering products to the market. Nazdar continues to enjoy the position as a preferred inks manufacturer to a number of OEM partners. As one of the most experienced ink development companies in the world, Nazdar offers more knowledge and R&D expertise than any other ink company.

Nazdar is known for products that push the envelope of colour and performance in the inkjet world. Nazdar continues to develop products that challenge the industry. Nazdar are aware of their customers requirements for products that outperform the colour capabilities of the OEM ink, bringing new life to your printer and to your output.
