

NAZDAR® 285 Series Aqueous Digital Ink

NAZDAR® 285 Series Digital Ink for HP L26500, L28500, L265 & L280

- **Colour Match to HP 792 Series Ink**
- **No profiling necessary in most situations**
- **Refurbished original cartridge to ensure excellent performance**
- **Excellent print head & nozzle performance**
- **No reduction in head life**

Nazdar's warranty states that if Nazdar inks are ever proven responsible for the breakdown of a digital printer, Nazdar will provide reimbursement for the cost required to repair any damage to the ink train.

In addition to the Nazdar warranty, QPS Ltd, offer full front line technical support to all users of Nazdar ink products in the UK. This can be via adhoc 'Pay as you Go' arrangements or with more formal 'Service Contract' packages.

All service work is completed by experienced QPS Ltd engineers.

QPS Ltd proudly offer our Nazdar branded products as the most reliable and technically advanced in the industry.

Nazdar series 285 ink is a true alternative to the original HP 792 series ink set. Our cartridges are 100% compatible and install just like OEM cartridges. The 285 series ink is colour comparable, meaning that there is no need to custom profile in most situations.

The 285 inks are filled into refurbished original HP cartridges to ensure excellent performance and reliability.

Excellent nozzle performance promotes head life, while our low odour formulation can make for a more pleasant working environment.

Users will also realise substantial cost savings over the OEM product.

When changing from HP 792 series original ink cartridges to Nazdar 285 series cartridges operators should remove the empty OEM cartridge and replace with a Nazdar ink cartridge and continue printing. This can be carried out either one cartridge at a time or all colours together.

You will find the Nazdar brand buried in the history of nearly every inkjet printer manufacturer currently offering products to the market. Nazdar continues to enjoy the position as a preferred inks manufacturer to a number of OEM partners. As one of the most experienced ink development companies in the world, Nazdar offers more knowledge and R&D expertise than any other ink company.

Nazdar is known for products that are at the leading edge of colour and performance in the inkjet world. While Nazdar continue to develop innovative new products Nazdar are very aware of the market requirement for products that very simply match the characteristics of the OEM offering.

With the strongest third party warranty, you can take comfort in knowing that Nazdar stands behind every drop of Nazdar digital ink that is supplied with the best warranty in the business.
