

707 Series

UV Inks

Mimaki® JFX500

Nazdar 707 Series inks have been designed as a direct replacement of the Mimaki® LUS150 Series inks in use in the JFX500 machines.

Primary features are as follows:

- Chemically compatible with the OEM inks for true plug-and-play
- Close color match to the OEM ink set
- Formulated for use in both flexible and rigid applications
- Long term exterior performance with proven resistance to the effects of UV degradation and color fade.
- Compatible chip for LUS150 series
- Better adhesion to fluted polypropylene

Substrates

Compatible with a wide range of self supporting flexible and pressure sensitive vinyl, banner, polystyrene, Dibond®, expanded PVC, polycarbonate, digital grade acrylic, foamboard and digital grade fluted polypropylene

Packaging

Colors available in 1 liter containers for bulk system.

(OEM compatible containers for Cap A assembly coming soon).

1 Liter Bottles

Item No.	Colors
LWS707CY1L	Cyan
LWS707MA1L	Magenta
LWS707YE1L	Yellow
LWS707KK1L	Black
LWS707WH1L	White

Item No.	1 Liter Bottles
LWU7001FF	UV Maintenance Solution
