QUV-60

UV-DTF PRINTER

The QUV-60 provides the perfect solution for hard and soft surface decoration. Producing vibrant designs for the application to the widest range of substrates away from fabrics. These include, phone cases, ceramics, plastic water bottles, key rings, USB sticks and much more. Only limited by your imagination!

Staggered print head configuration to allow white, colour and varnish ink to be printed. All cured with efficient LED lamps.

Inline lamination improves print protection and application ease, improving workflow.

Powered take-up for both printed material and waste liner allows for extended uninterrupted production.
